

The diagram illustrates the information structure for Speaker 1. At the top, the text "Speaker 1" is centered. Below it, "Institution 1" is centered. A horizontal line separates this header from the main content area. In the center of this area, two boxes labeled "A" and "B" are positioned side-by-side. Below the line, the text "Conference Name", "Institution", and "Conference Dates" is listed vertically on the left. On the right side, a box labeled "C" is positioned, aligned with the "Institution" text.

Diagram illustrating the information structure for Speaker 3:

- Speaker 3 (Top Level)
- Institution 3 (Middle Level)
- Two boxes labeled A and B (Bottom Level, under Institution 3)
- Labels below the boxes: Conference Name, Institution, Conference Dates
- Box C (Bottom Right, associated with Conference Dates)

The diagram shows a presentation flow for Speaker 4. At the top, it says "Speaker 4" and "Institution 4". Below this, there are two boxes labeled "A" and "B". A horizontal line separates these from the bottom section, which lists "Conference Name", "Institution", and "Conference Dates". To the right of this list is a box labeled "C".

The diagram shows a presentation structure for Speaker 5. At the top, the text "Speaker 5" is centered. Below it, "Institution 5" is centered. A horizontal line spans the width of the diagram. Above this line, there are two gray boxes labeled "A" and "B". Below the line, the text "Conference Name" is on the left, "Institution" is in the center, and "Conference Dates" is on the right. A gray box labeled "C" is positioned below "Conference Dates".

Conference Name	Institution	Conference Dates
A	B	C

The diagram shows a stage layout for Speaker 6. At the top, the text "Speaker 6" is centered. Below it, "Institution 6" is centered. A horizontal line represents the stage floor. On the line, there are two square boxes labeled "A" and "B". To the right of the line, there is a small square box labeled "C".

The diagram illustrates the data structure for a participant. At the top, a large box labeled 'Participant 1' contains the text 'Institution 1'. Below this, a horizontal line separates the participant's information from the conference data. Under the line, there are two boxes labeled 'A' and 'B', representing different conferences. To the right of these boxes, there is a box labeled 'C'.

The diagram illustrates the data structure for Participant 2. At the top, a '+' sign is present. Below it, the text 'Participant 2' is centered. Underneath, 'Institution 2' is centered. A horizontal line spans the width of the diagram. Below this line, there are two gray boxes labeled 'A' and 'B'. To the left of these boxes, the text 'Conference Name', 'Institution', and 'Conference Dates' is listed vertically. To the right of the boxes, there is a gray box labeled 'C'.

The diagram illustrates the information structure for a participant. At the top, the text "Participant 4" is displayed. Below it, "Institution 4" is shown. A horizontal line separates this header from the main information structure. This structure consists of two boxes, A and B, positioned side-by-side. Box A contains the text "Conference Name" and "Institution". Box B contains the text "Conference Dates".

The diagram illustrates the information structure for a participant. At the top, a large box labeled 'Participant 6' contains a smaller box labeled 'Institution 6'. Below 'Institution 6', there are two boxes labeled 'A' and 'B'. A horizontal line separates these from the bottom section, which contains three labels: 'Conference Name', 'Institution', and 'Conference Dates'. To the right of these labels is a box labeled 'C'.

Diagram illustrating the layout for Participant 7. The grid is 3 columns wide and 3 rows high. The top row is labeled "Institution 6" and contains two gray squares labeled "A" and "B". The middle row is labeled "Conference Name" and contains a gray square labeled "C". The bottom row is labeled "Institution" and "Conference Dates". The grid is flanked by "+" signs on both sides.

Diagram illustrating the data structure for Participant 8:

- Conference Name
- Institution
- Conference Dates

The data is organized into three columns (A, B, C) corresponding to the labels above. The labels are positioned below the data row, and the data values (A, B, C) are positioned above the labels.

Diagram illustrating the data structure for Participant 9:

- Timeline:** A horizontal line with plus signs at both ends.
- Labels:**
  - Conference Name:** Located on the left side of the timeline.
  - Institution:** Located in the middle of the timeline.
  - Conference Dates:** Located on the right side of the timeline.
- Events:**
  - A:** A gray box with diagonal lines, positioned under 'Conference Name'.
  - B:** A gray box with diagonal lines, positioned under 'Institution'.
  - C:** A gray box with diagonal lines, positioned under 'Conference Dates'.

The diagram illustrates the data structure for Participant 11. It features a horizontal line representing a timeline. Above this line, two gray boxes labeled 'A' and 'B' are positioned, representing different time points or events. Below the line, the text 'Conference Name' and 'Institution' are aligned to the left, and 'Conference Dates' is aligned to the right, next to a small gray box labeled 'C'.

Diagram illustrating the data structure for Participant 12:

- Conference Name
- Institution
- Conference Dates
- Institution 11
- Institution 12

Diagram illustrating the structure of a participant's record (Participant 13) and its associated data fields:

- Participant 13** (Central Entity)
- Record Structure:** A horizontal line represents the record, with fields below it:
  - Conference Name
  - Conference Dates
  - Institution
- Data Fields:** Three boxes labeled A, B, and C are positioned above the record line, representing specific data points or identifiers.
